GENERAL MARKING GUIDANCE

Accept other correct, relevant responses even where they are not listed in this guide.

Award marks for demonstrated understanding; do not penalise a learner for using different but accurate wording.

For the drawing task, assess the evidence shown in the learner's work rather than artistic talent alone.

Where a practical performance is used as a follow-up classroom assessment, assess preparation, safe handling, technique, creativity, cooperation and reflection using criteria explained to learners in advance.

Teachers should confirm that the assessed content and practical skills have been taught before administering the test.
