**Step 2:** In pairs or groups, learners discuss choices, responsibilities and possible consequences, respecting different experiences.

**Step 3:** Learners analyse a practical scenario, role-play a responsible response or prepare a chart of Christian values for daily living.

**Step 4:** Learners share practical applications and explain how integrity, compassion, responsibility and respect can guide decisions.

### Extended Activities

Learners who complete the task extend learning through a reflective journal, comparison of related Bible passages, a short poem, a values chart or an age-appropriate community service idea. Learners needing support use guided reading, vocabulary support, paired discussion and structured questions. Handle sensitive themes such as grief, relationships, marriage, poverty and family life with care; do not require learners to disclose private family experiences.

### 5 minutes – Conclusion

Learners summarise the biblical teaching and respond to the inquiry question: How should Christians use wealth and resources responsibly? Each learner states one lesson learned and one practical way to demonstrate the relevant Christian value.

### Assessment

**Suggested assessment evidence:** Oral/aural questions; observation schedule; discussion; written assignments; role-play/presentation rubric; learner journal; peer and self-assessment.

## Reflection in the lesson / self-remarks

After teaching, record evidence of biblical understanding, interpretation, respectful discussion, application of Christian values and participation. Note sensitive issues requiring follow-up, learners needing support and the next instructional step.

## Implementation Notes

This collection contains 120 Grade 9 CRE lesson plans based on the teacher-prepared full-year scheme, following the five KICD strands and the 14 sub-strands in its summary table.

The KICD design summary suggests 120 lessons. This scheme plans 40 lessons per term at four 40-minute lessons per week over approximately 10 teaching weeks. Use the school's actual calendar to schedule the remaining periods for assessment, revision, Community Service Learning, feedback, remediation and enrichment.

The KICD summary and detailed sub-strand pages contain some lesson-count and numbering discrepancies. The scheme follows the summary allocation and flags this for teacher verification before adoption. Review the detailed KICD design when finalising lesson numbering.
