KARUNGA JUNIOR SCHOOL
GRADE 9 CHRISTIAN RELIGIOUS EDUCATION (CRE)
FULL-YEAR SCHEME OF WORK

Teacher: _____ **Academic Year:** _____ **TSC No.:** _____

Curriculum basis: KICD Grade 9 Christian Religious Education Curriculum Design (2024), Summary of Strands and Sub-Strands. The design summary allocates 120 suggested lessons. Its detailed sub-strand pages sometimes show lesson counts that differ from the summary table (for example, Work is shown as 8 in the summary but 6 in its detailed section). This scheme follows the summary table's annual 120-lesson allocation for planning and flags the discrepancy for teacher verification before use.

Outcome format used in every lesson: At the end of the lesson, the learner should be able to: (1) Knowledge, (2) Skills, and (3) Attitude. Learning experiences are learner-centred and framed around observable learner actions.

TERM 1

Planned curriculum lessons: 40. At four lessons per week, allocate approximately 10 weeks to the core sequence; use remaining term weeks for CATs, revision, CSL, feedback, remediation and school activities.

_____

Annual assessment and implementation notes

Use varied assessment evidence: oral questioning, observation, written work, group discussion, Bible interpretation, role-play, presentations, learner journals, portfolios, projects and community service learning. Provide feedback and support according to learner needs.

The 120 suggested curriculum lessons are not the same as all available timetable periods. The KICD time allocation is four 40-minute CRE lessons per week. Use the school's actual calendar to place the 120 core lessons and reserve remaining periods for assessment, revision, Community Service Learning (CSL), remediation, enrichment and school-based activities.
