GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 1

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 2	WEEK: 1	LESSON: 1	TIME: 40 minutes | ROLL: _____

Strand: 1.0 Foundations of Creative Arts and Sports

Sub-strand: 1.1 Careers in Creative Arts and Sports

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify careers in creative arts and sports. Skills: Illustrate entrepreneurial opportunities in creative arts and sports. Attitude: Appreciate careers and talents in creative arts and sports; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: What are the career opportunities related to Creative Arts and Sports?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “1.1 Careers in Creative Arts and Sports”. They share prior knowledge and consider: What are the career opportunities related to Creative Arts and Sports?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to observe examples or demonstrations; identify key features; discuss prior knowledge; and record findings. The learner is guided to research careers using print or digital sources; explore actual or virtual theatres, studios, galleries, workshops and sports centres; interview or listen to practitioners; and present a career profile.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: What are the career opportunities related to Creative Arts and Sports? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

_____

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 2

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 2	WEEK: 1	LESSON: 2	TIME: 40 minutes | ROLL: _____

Strand: 1.0 Foundations of Creative Arts and Sports

Sub-strand: 1.1 Careers in Creative Arts and Sports

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify careers in creative arts and sports. Skills: Illustrate entrepreneurial opportunities in creative arts and sports. Attitude: Appreciate careers and talents in creative arts and sports; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: What are the career opportunities related to Creative Arts and Sports?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “1.1 Careers in Creative Arts and Sports”. They share prior knowledge and consider: What are the career opportunities related to Creative Arts and Sports?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to investigate techniques or rules; compare examples; work in pairs or groups; and present observations. The learner is guided to research careers using print or digital sources; explore actual or virtual theatres, studios, galleries, workshops and sports centres; interview or listen to practitioners; and present a career profile.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: What are the career opportunities related to Creative Arts and Sports? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 3

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 2	WEEK: 1	LESSON: 3	TIME: 40 minutes | ROLL: _____

Strand: 1.0 Foundations of Creative Arts and Sports

_____

_____

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 11

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 2	WEEK: 3	LESSON: 1	TIME: 40 minutes | ROLL: _____

Strand: 1.0 Foundations of Creative Arts and Sports

Sub-strand: 1.2 Components of Creative Arts and Sports

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Describe selected elements of a play, music and physical fitness. Skills: Demonstrate activities involving power and reaction time. Attitude: Identify pitches and construct the f major scale on the grand stave; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How do the components of Creative Arts and Sports contribute to performance?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “1.2 Components of Creative Arts and Sports”. They share prior knowledge and consider: How do the components of Creative Arts and Sports contribute to performance?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to observe examples or demonstrations; identify key features; discuss prior knowledge; and record findings. The learner is guided to watch a play extract; identify theme, characters, plot, conflict, resolution, setting and language; practise safe fitness activities for power and reaction time; draw the grand stave; name notes; and practise F major scale patterns.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How do the components of Creative Arts and Sports contribute to performance? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

_____

_____

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 12

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 2	WEEK: 3	LESSON: 2	TIME: 40 minutes | ROLL: _____

Strand: 1.0 Foundations of Creative Arts and Sports

Sub-strand: 1.2 Components of Creative Arts and Sports

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Describe selected elements of a play, music and physical fitness. Skills: Demonstrate activities involving power and reaction time. Attitude: Identify pitches and construct the f major scale on the grand stave; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How do the components of Creative Arts and Sports contribute to performance?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “1.2 Components of Creative Arts and Sports”. They share prior knowledge and consider: How do the components of Creative Arts and Sports contribute to performance?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to investigate techniques or rules; compare examples; work in pairs or groups; and present observations. The learner is guided to watch a play extract; identify theme, characters, plot, conflict, resolution, setting and language; practise safe fitness activities for power and reaction time; draw the grand stave; name notes; and practise F major scale patterns.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How do the components of Creative Arts and Sports contribute to performance? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

_____

_____

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 21

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 2	WEEK: 5	LESSON: 1	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.1 Drawing and Painting

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Discuss harmony and unity in a picture. Skills: Classify analogous colours and illustrate colour gradation. Attitude: Create a scenery composition expressing colour harmony, mood and texture; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How do colour and texture influence a painting?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.1 Drawing and Painting”. They share prior knowledge and consider: How do colour and texture influence a painting?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to observe examples or demonstrations; identify key features; discuss prior knowledge; and record findings. The learner is guided to observe and discuss pictures; paint a colour wheel and gradation strips; sketch a landscape or seascape; apply thin washes and brush-stroke techniques; use dabbing to create texture; and display work for peer feedback.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How do colour and texture influence a painting? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 22

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.1 Drawing and Painting”. They share prior knowledge and consider: How do colour and texture influence a painting?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to investigate techniques or rules; compare examples; work in pairs or groups; and present observations. The learner is guided to observe and discuss pictures; paint a colour wheel and gradation strips; sketch a landscape or seascape; apply thin washes and brush-stroke techniques; use dabbing to create texture; and display work for peer feedback.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How do colour and texture influence a painting? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 23

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 2	WEEK: 5	LESSON: 3	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.1 Drawing and Painting

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Discuss harmony and unity in a picture. Skills: Classify analogous colours and illustrate colour gradation. Attitude: Create a scenery composition expressing colour harmony, mood and texture; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How do colour and texture influence a painting?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.1 Drawing and Painting”. They share prior knowledge and consider: How do colour and texture influence a painting?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to practise the relevant creative or sporting skill through a guided activity; record progress; and seek feedback. The learner is guided to observe and discuss pictures; paint a colour wheel and gradation strips; sketch a landscape or seascape; apply thin washes and brush-stroke techniques; use dabbing to create texture; and display work for peer feedback.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How do colour and texture influence a painting? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 24

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 2	WEEK: 5	LESSON: 4	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.1 Drawing and Painting

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Discuss harmony and unity in a picture. Skills: Classify analogous colours and illustrate colour gradation. Attitude: Create a scenery composition expressing colour harmony, mood and texture; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How do colour and texture influence a painting?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.1 Drawing and Painting”. They share prior knowledge and consider: How do colour and texture influence a painting?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to create, perform or apply the skill in a practical task; evaluate the outcome against agreed criteria; and suggest improvements. The learner is guided to observe and discuss pictures; paint a colour wheel and gradation strips; sketch a landscape or seascape; apply thin washes and brush-stroke techniques; use dabbing to create texture; and display work for peer feedback.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How do colour and texture influence a painting? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 25

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 2	WEEK: 5	LESSON: 5	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.1 Drawing and Painting

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Discuss harmony and unity in a picture. Skills: Classify analogous colours and illustrate colour gradation. Attitude: Create a scenery composition expressing colour harmony, mood and texture; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How do colour and texture influence a painting?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.1 Drawing and Painting”. They share prior knowledge and consider: How do colour and texture influence a painting?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to present or demonstrate work; participate in peer appreciation; reflect on strengths and areas for improvement; and organise evidence in a portfolio. The learner is guided to observe and discuss pictures; paint a colour wheel and gradation strips; sketch a landscape or seascape; apply thin washes and brush-stroke techniques; use dabbing to create texture; and display work for peer feedback.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How do colour and texture influence a painting? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 26

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 2	WEEK: 6	LESSON: 1	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.1 Drawing and Painting

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Discuss harmony and unity in a picture. Skills: Classify analogous colours and illustrate colour gradation. Attitude: Create a scenery composition expressing colour harmony, mood and texture; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How do colour and texture influence a painting?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.1 Drawing and Painting”. They share prior knowledge and consider: How do colour and texture influence a painting?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to observe examples or demonstrations; identify key features; discuss prior knowledge; and record findings. The learner is guided to observe and discuss pictures; paint a colour wheel and gradation strips; sketch a landscape or seascape; apply thin washes and brush-stroke techniques; use dabbing to create texture; and display work for peer feedback.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How do colour and texture influence a painting? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 27

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 2	WEEK: 6	LESSON: 2	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.1 Drawing and Painting

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Discuss harmony and unity in a picture. Skills: Classify analogous colours and illustrate colour gradation. Attitude: Create a scenery composition expressing colour harmony, mood and texture; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How do colour and texture influence a painting?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.1 Drawing and Painting”. They share prior knowledge and consider: How do colour and texture influence a painting?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to investigate techniques or rules; compare examples; work in pairs or groups; and present observations. GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 32

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 2	WEEK: 7	LESSON: 2	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.1 Drawing and Painting

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Discuss harmony and unity in a picture. Skills: Classify analogous colours and illustrate colour gradation. Attitude: Create a scenery composition expressing colour harmony, mood and texture; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How do colour and texture influence a painting?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.1 Drawing and Painting”. They share prior knowledge and consider: How do colour and texture influence a painting?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to investigate techniques or rules; compare examples; work in pairs or groups; and present observations. The learner is guided to observe and discuss pictures; paint a colour wheel and gradation strips; sketch a landscape or seascape; apply thin washes and brush-stroke techniques; use dabbing to create texture; and display work for peer feedback.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How do colour and texture influence a painting? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 33

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 2	WEEK: 7	LESSON: 3	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.2 Rhythm

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Describe the effect of dotted note values and rests on rhythmic patterns. Skills: Compose and notate a four-bar rhythmic pattern in 4/4 time. Attitude: Perform rhythmic patterns accurately using body percussion or instruments; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How does note extension affect rhythmic patterns?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.2 Rhythm”. They share prior knowledge and consider: How does note extension affect rhythmic patterns?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to observe examples or demonstrations; identify key features; discuss prior knowledge; and record findings. The learner is guided to clap, tap and speak rhythmic patterns; identify dotted minim, dotted crotchet and quaver values and rests; compose four-bar patterns; notate rhythms from dictation; and perform in groups.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How does note extension affect rhythmic patterns? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 34

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 2	WEEK: 7	LESSON: 4	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.2 Rhythm

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Describe the effect of dotted note values and rests on rhythmic patterns. Skills: Compose and notate a four-bar rhythmic pattern in 4/4 time. Attitude: Perform rhythmic patterns accurately using body percussion or instruments; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How does note extension affect rhythmic patterns?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.2 Rhythm”. They share prior knowledge and consider: How does note extension affect rhythmic patterns?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to investigate techniques or rules; compare examples; work in pairs or groups; and present observations. The learner is guided to clap, tap and speak rhythmic patterns; identify dotted minim, dotted crotchet and quaver values and rests; compose four-bar patterns; notate rhythms from dictation; and perform in groups.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How does note extension affect rhythmic patterns? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 35

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 2	WEEK: 7	LESSON: 5	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.2 Rhythm

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Describe the effect of dotted note values and rests on rhythmic patterns. Skills: Compose and notate a four-bar rhythmic pattern in 4/4 time. Attitude: Perform rhythmic patterns accurately using body percussion or instruments; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How does note extension affect rhythmic patterns?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.2 Rhythm”. They share prior knowledge and consider: How does note extension affect rhythmic patterns?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to practise the relevant creative or sporting skill through a guided activity; record progress; and seek feedback. The learner is guided to clap, tap and speak rhythmic patterns; identify dotted minim, dotted crotchet and quaver values and rests; compose four-bar patterns; notate rhythms from dictation; and perform in groups.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How does note extension affect rhythmic patterns? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 36

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.2 Rhythm”. They share prior knowledge and consider: How does note extension affect rhythmic patterns?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to investigate techniques or rules; compare examples; work in pairs or groups; and present observations. The learner is guided to clap, tap and speak rhythmic patterns; identify dotted minim, dotted crotchet and quaver values and rests; compose four-bar patterns; notate rhythms from dictation; and perform in groups.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How does note extension affect rhythmic patterns? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 45

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 2	WEEK: 9	LESSON: 5	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.3 Athletics and Mosaic

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Demonstrate selected athletics skills using appropriate techniques. Skills: Explain safety and fair-play practices in athletics. Attitude: Create a mosaic composition inspired by an athletics event; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How can athletics inspire a mosaic composition?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.3 Athletics and Mosaic”. They share prior knowledge and consider: How can athletics inspire a mosaic composition?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to observe examples or demonstrations; identify key features; discuss prior knowledge; and record findings. The learner is guided to warm up; practise selected athletics skills and event techniques in a safe space; observe rules and fair play; plan a mosaic design inspired by movement or an athletics event; arrange and fix suitable materials; and evaluate the artwork.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How can athletics inspire a mosaic composition? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 46

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 2	WEEK: 10	LESSON: 1	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.3 Athletics and Mosaic

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Demonstrate selected athletics skills using appropriate techniques. Skills: Explain safety and fair-play practices in athletics. Attitude: Create a mosaic composition inspired by an athletics event; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How can athletics inspire a mosaic composition?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.3 Athletics and Mosaic”. They share prior knowledge and consider: How can athletics inspire a mosaic composition?

30 minutes – Lesson Development

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.3 Athletics and Mosaic”. They share prior knowledge and consider: How can athletics inspire a mosaic composition?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to observe examples or demonstrations; identify key features; discuss prior knowledge; and record findings. The learner is guided to warm up; practise selected athletics skills and event techniques in a safe space; observe rules and fair play; plan a mosaic design inspired by movement or an athletics event; arrange and fix suitable materials; and evaluate the artwork.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How can athletics inspire a mosaic composition? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 56

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 3	WEEK: 2	LESSON: 1	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.3 Athletics and Mosaic

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Demonstrate selected athletics skills using appropriate techniques. Skills: Explain safety and fair-play practices in athletics. Attitude: Create a mosaic composition inspired by an athletics event; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How can athletics inspire a mosaic composition?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.3 Athletics and Mosaic”. They share prior knowledge and consider: How can athletics inspire a mosaic composition?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to investigate techniques or rules; compare examples; work in pairs or groups; and present observations. The learner is guided to warm up; practise selected athletics skills and event techniques in a safe space; observe rules and fair play; plan a mosaic design inspired by movement or an athletics event; arrange and fix suitable materials; and evaluate the artwork.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How can athletics inspire a mosaic composition? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 57

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 3	WEEK: 2	LESSON: 2	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.3 Athletics and Mosaic

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Demonstrate selected athletics skills using appropriate techniques. Skills: Explain safety and fair-play practices in athletics. Attitude: Create a mosaic composition inspired by an athletics event; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How can athletics inspire a mosaic composition?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.3 Athletics and Mosaic”. They share prior knowledge and consider: How can athletics inspire a mosaic composition?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to practise the relevant creative or sporting skill through a guided activity; record progress; and seek feedback. The learner is guided to warm up; practise selected athletics skills and event techniques in a safe space; observe rules and fair play; plan a mosaic design inspired by movement or an athletics event; arrange and fix suitable materials; and evaluate the artwork.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How can athletics inspire a mosaic composition? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 59

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 3	WEEK: 2	LESSON: 4	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.4 Melody

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify and describe selected melodic features and pitches. Skills: Read and perform simple melodies using appropriate notation. Attitude: Compose or improvise a short melody using learnt pitch patterns; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How can pitch patterns be organised to create a melody?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.4 Melody”. They share prior knowledge and consider: How can pitch patterns be organised to create a melody?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to observe examples or demonstrations; identify key features; discuss prior knowledge; and record findings. The learner is guided to sing and listen to melodic examples; identify pitch movement; practise scales and simple melodic patterns; read notation on the staff; perform in groups; and create a short melody for peer response.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How can pitch patterns be organised to create a melody? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 60

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 3	WEEK: 2	LESSON: 5	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.4 Melody

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify and describe selected melodic features and pitches. Skills: Read and perform simple melodies using appropriate notation. Attitude: Compose or improvise a short melody using learnt pitch patterns; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How can pitch patterns be organised to create a melody?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.4 Melody”. They share prior knowledge and consider: How can pitch patterns be organised to create a melody?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to practise the relevant creative or sporting skill through a guided activity; record progress; and seek feedback. The learner is guided to sing and listen to melodic examples; identify pitch movement; practise scales and simple melodic patterns; read notation on the staff; perform in groups; and create a short melody for peer response.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How can pitch patterns be organised to create a melody? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 67

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 3	WEEK: 4	LESSON: 2	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.4 Melody

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify and describe selected melodic features and pitches. Skills: Read and perform simple melodies using appropriate notation. Attitude: Compose or improvise a short melody using learnt pitch patterns; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How can pitch patterns be organised to create a melody?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.4 Melody”. They share prior knowledge and consider: How can pitch patterns be organised to create a melody?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to create, perform or apply the skill in a practical task; evaluate the outcome against agreed criteria; and suggest improvements. The learner is guided to sing and listen to melodic examples; identify pitch movement; practise scales and simple melodic patterns; read notation on the staff; perform in groups; and create a short melody for peer response.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How can pitch patterns be organised to create a melody? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 68

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 3	WEEK: 4	LESSON: 3	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.4 Melody

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify and describe selected melodic features and pitches. Skills: Read and perform simple melodies using appropriate notation. Attitude: Compose or improvise a short melody using learnt pitch patterns; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How can pitch patterns be organised to create a melody?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.4 Melody”. They share prior knowledge and consider: How can pitch patterns be organised to create a melody?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to present or demonstrate work; participate in peer appreciation; reflect on strengths and areas for improvement; and organise evidence in a portfolio. The learner is guided to sing and listen to melodic examples; identify pitch movement; practise scales and simple melodic patterns; read notation on the staff; perform in groups; and create a short melody for peer response.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How can pitch patterns be organised to create a melody? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 69

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 71

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 3	WEEK: 5	LESSON: 1	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.5 Rugby

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify basic rugby skills, rules and player roles. Skills: Demonstrate selected rugby skills using safe techniques. Attitude: Apply teamwork, fair play and safety during modified rugby activities; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How do skills and teamwork contribute to effective rugby play?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.5 Rugby”. They share prior knowledge and consider: How do skills and teamwork contribute to effective rugby play?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to observe examples or demonstrations; identify key features; discuss prior knowledge; and record findings. The learner is guided to practise warm-up activities; demonstrate passing, catching, running and evasion skills as appropriate; explore basic rules and positions; participate in modified non-contact activities; and reflect on teamwork and safety.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.5 Rugby”. They share prior knowledge and consider: How do skills and teamwork contribute to effective rugby play?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to investigate techniques or rules; compare examples; work in pairs or groups; and present observations. The learner is guided to practise warm-up activities; demonstrate passing, catching, running and evasion skills as appropriate; explore basic rules and positions; participate in modified non-contact activities; and reflect on teamwork and safety.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How do skills and teamwork contribute to effective rugby play? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 78

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 3	WEEK: 6	LESSON: 3	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.5 Rugby

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify basic rugby skills, rules and player roles. Skills: Demonstrate selected rugby skills using safe techniques. Attitude: Apply teamwork, fair play and safety during modified rugby activities; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How do skills and teamwork contribute to effective rugby play?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.5 Rugby”. They share prior knowledge and consider: How do skills and teamwork contribute to effective rugby play?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to practise the relevant creative or sporting skill through a guided activity; record progress; and seek feedback. The learner is guided to practise warm-up activities; demonstrate passing, catching, running and evasion skills as appropriate; explore basic rules and positions; participate in modified non-contact activities; and reflect on teamwork and safety.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How do skills and teamwork contribute to effective rugby play? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 79

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 3	WEEK: 6	LESSON: 4	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.5 Rugby

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify basic rugby skills, rules and player roles. Skills: Demonstrate selected rugby skills using safe techniques. Attitude: Apply teamwork, fair play and safety during modified rugby activities; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How do skills and teamwork contribute to effective rugby play?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.5 Rugby”. They share prior knowledge and consider: How do skills and teamwork contribute to effective rugby play?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to create, perform or apply the skill in a practical task; evaluate the outcome against agreed criteria; and suggest improvements. The learner is guided to practise warm-up activities; demonstrate passing, catching, running and evasion skills as appropriate; explore basic rules and positions; participate in modified non-contact activities; and reflect on teamwork and safety.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 83

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 3	WEEK: 7	LESSON: 3	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.6 Photography

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify basic elements and techniques of photography. Skills: Use a camera or digital device to compose photographs for a given purpose. Attitude: Select and present photographs while observing ethical and safety practices; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How can photographic techniques communicate a message?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.6 Photography”. They share prior knowledge and consider: How can photographic techniques communicate a message?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to observe examples or demonstrations; identify key features; discuss prior knowledge; and record findings. The learner is guided to explore camera or phone functions; practise framing, focus, lighting and composition; take photographs of an agreed subject; select and organise images; and discuss consent, privacy and responsible sharing.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How can photographic techniques communicate a message? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.6 Photography”. They share prior knowledge and consider: How can photographic techniques communicate a message?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to observe examples or demonstrations; identify key features; discuss prior knowledge; and record findings. The learner is guided to explore camera or phone functions; practise framing, focus, lighting and composition; take photographs of an agreed subject; select and organise images; and discuss consent, privacy and responsible sharing.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How can photographic techniques communicate a message? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 89

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 3	WEEK: 8	LESSON: 4	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.6 Photography

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify basic elements and techniques of photography. Skills: Use a camera or digital device to compose photographs for a given purpose. Attitude: Select and present photographs while observing ethical and safety practices; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How can photographic techniques communicate a message?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.6 Photography”. They share prior knowledge and consider: How can photographic techniques communicate a message?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to investigate techniques or rules; compare examples; work in pairs or groups; and present observations. The learner is guided to explore camera or phone functions; practise framing, focus, lighting and composition; take photographs of an agreed subject; select and organise images; and discuss consent, privacy and responsible sharing.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How can photographic techniques communicate a message? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 90

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 3	WEEK: 8	LESSON: 5	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.6 Photography

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify basic elements and techniques of photography. Skills: Use a camera or digital device to compose photographs for a given purpose. Attitude: Select and present photographs while observing ethical and safety practices; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How can photographic techniques communicate a message?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.6 Photography”. They share prior knowledge and consider: How can photographic techniques communicate a message?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to practise the relevant creative or sporting skill through a guided activity; record progress; and seek feedback. The learner is guided to explore camera or phone functions; practise framing, focus, lighting and composition; take photographs of an agreed subject; select and organise images; and discuss consent, privacy and responsible sharing.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How can photographic techniques communicate a message? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.7 Descant Recorder”. They share prior knowledge and consider: How do breath control and fingering affect recorder performance?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to investigate techniques or rules; compare examples; work in pairs or groups; and present observations. The learner is guided to identify recorder parts; practise cleaning and safe handling; demonstrate posture and breath control; practise fingering and note reading; play short melodic phrases individually and in groups.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How do breath control and fingering affect recorder performance? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 100

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 3	WEEK: 10	LESSON: 5	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.7 Descant Recorder

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify parts and care procedures of a descant recorder. Skills: Read and perform selected notes and simple melodies on the recorder. Attitude: Demonstrate correct posture, breath control and fingering; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How do breath control and fingering affect recorder performance?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.7 Descant Recorder”. They share prior knowledge and consider: How do breath control and fingering affect recorder performance?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to practise the relevant creative or sporting skill through a guided activity; record progress; and seek feedback. The learner is guided to identify recorder parts; practise cleaning and safe handling; demonstrate posture and breath control; practise fingering and note reading; play short melodic phrases individually and in groups.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How do breath control and fingering affect recorder performance? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

_____

_____

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 103

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 4	WEEK: 1	LESSON: 3	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.8 Play

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify elements and structure of a play. Skills: Develop a simple script using appropriate dramatic techniques. Attitude: Perform a short play collaboratively and evaluate the performance; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How do the elements of a play work together to communicate ideas?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.8 Play”. They share prior knowledge and consider: How do the elements of a play work together to communicate ideas?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to observe examples or demonstrations; identify key features; discuss prior knowledge; and record findings. The learner is guided to read and analyse a play extract; identify theme, characters, plot, conflict, resolution, setting and language; improvise scenes; plan and write a short script; rehearse; perform; and give constructive feedback.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Key Inquiry Question: How do the elements of a play work together to communicate ideas?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.8 Play”. They share prior knowledge and consider: How do the elements of a play work together to communicate ideas?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to practise the relevant creative or sporting skill through a guided activity; record progress; and seek feedback. The learner is guided to read and analyse a play extract; identify theme, characters, plot, conflict, resolution, setting and language; improvise scenes; plan and write a short script; rehearse; perform; and give constructive feedback.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How do the elements of a play work together to communicate ideas? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 111

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 4	WEEK: 3	LESSON: 1	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.8 Play

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify elements and structure of a play. Skills: Develop a simple script using appropriate dramatic techniques. Attitude: Perform a short play collaboratively and evaluate the performance; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How do the elements of a play work together to communicate ideas?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to "2.8 Play". They share prior knowledge and consider: How do the elements of a play work together to communicate ideas?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to create, perform or apply the skill in a practical task; evaluate the outcome against agreed criteria; and suggest improvements. The learner is guided to read and analyse a play extract; identify theme, characters, plot, conflict, resolution, setting and language; improvise scenes; plan and write a short script; rehearse; perform; and give constructive feedback.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How do the elements of a play work together to communicate ideas? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 112

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 4	WEEK: 3	LESSON: 2	TIME: 40 minutes | ROLL: _____

TERM: 4	WEEK: 5	LESSON: 1	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.9 Basketball and Logo Design

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify basic basketball skills, rules and positions. Skills: Demonstrate selected basketball skills in modified games. Attitude: Design a logo for a basketball team and explain its visual message; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How can a team logo communicate identity and teamwork?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.9 Basketball and Logo Design”. They share prior knowledge and consider: How can a team logo communicate identity and teamwork?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to investigate techniques or rules; compare examples; work in pairs or groups; and present observations. The learner is guided to practise warm-up and ball-handling skills; demonstrate passing, dribbling, shooting and movement; participate in modified games using safety and fair play; sketch and refine a team logo; and present the design.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How can a team logo communicate identity and teamwork? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

_____

_____

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 122

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 4	WEEK: 5	LESSON: 2	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.9 Basketball and Logo Design

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify basic basketball skills, rules and positions. Skills: Demonstrate selected basketball skills in modified games. Attitude: Design a logo for a basketball team and explain its visual message; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How can a team logo communicate identity and teamwork?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.9 Basketball and Logo Design”. They share prior knowledge and consider: How can a team logo communicate identity and teamwork?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to practise the relevant creative or sporting skill through a guided activity; record progress; and seek feedback. The learner is guided to practise warm-up and ball-handling skills; demonstrate passing, dribbling, shooting and movement; participate in modified games using safety and fair play; sketch and refine a team logo; and present the design.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How can a team logo communicate identity and teamwork? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 132

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 4	WEEK: 7	LESSON: 2	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.10 Indigenous Kenyan Craft

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify selected indigenous kenyan craft forms, materials and techniques. Skills: Demonstrate a basic craft-making process using suitable local materials. Attitude: Appreciate cultural significance and sustainable use of craft materials; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How do indigenous crafts express culture and creativity?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.10 Indigenous Kenyan Craft”. They share prior knowledge and consider: How do indigenous crafts express culture and creativity?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to create, perform or apply the skill in a practical task; evaluate the outcome against agreed criteria; and suggest improvements. The learner is guided to research or observe examples of indigenous Kenyan crafts; identify materials, tools and techniques; plan a simple craft item; practise making it using safe locally available materials; and display and explain its cultural significance.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How do indigenous crafts express culture and creativity? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 133

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 4	WEEK: 7	LESSON: 3	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.10 Indigenous Kenyan Craft

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify selected indigenous kenyan craft forms, materials and techniques. Skills: Demonstrate a basic craft-making process using suitable local materials. Attitude: Appreciate cultural significance and sustainable use of craft materials; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How do indigenous crafts express culture and creativity?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.10 Indigenous Kenyan Craft”. They share prior knowledge and consider: How do indigenous crafts express culture and creativity?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to present or demonstrate work; participate in peer appreciation; reflect on strengths and areas for improvement; and organise evidence in a portfolio. The learner is guided to research or observe examples of indigenous Kenyan crafts; identify materials, tools and techniques; plan a simple craft item; practise making it using safe locally available materials; and display and explain its cultural significance.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How do indigenous crafts express culture and creativity? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 134

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 4	WEEK: 7	LESSON: 4	TIME: 40 minutes | ROLL: _____

Strand: 2.0 Creating and Performing in Creative Arts and Sports

Sub-strand: 2.10 Indigenous Kenyan Craft

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify selected indigenous kenyan craft forms, materials and techniques. Skills: Demonstrate a basic craft-making process using suitable local materials. Attitude: Appreciate cultural significance and sustainable use of craft materials; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How do indigenous crafts express culture and creativity?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “2.10 Indigenous Kenyan Craft”. They share prior knowledge and consider: How do indigenous crafts express culture and creativity?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to observe examples or demonstrations; identify key features; discuss prior knowledge; and record findings. The learner is guided to research or observe examples of indigenous Kenyan crafts; identify materials, tools and techniques; plan a simple craft item; practise making it using safe locally available materials; and display and explain its cultural significance.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How can we analyse and appreciate Creative Arts and Sports? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

_____

_____

GRADE 9 CREATIVE ARTS AND SPORTS – LESSON PLAN 143

SCHOOL: _____	GRADE: 9	LEARNING AREA: Creative Arts and Sports	DATE: _____
TERM: 4	WEEK: 9	LESSON: 3	TIME: 40 minutes | ROLL: _____

Strand: 3.0 Appreciation in Creative Arts and Sports

Sub-strand: 3.1 Analysis of Creative Arts and Sports

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:

- **Knowledge:** Identify features used to analyse creative artworks, music, drama and sports performances. Skills: Describe strengths and areas for improvement using relevant vocabulary. Attitude: Give and receive constructive feedback while appreciating diverse creative and sporting expressions; demonstrate respect, creativity, cooperation and commitment to safety.

Key Inquiry Question: How can we analyse and appreciate Creative Arts and Sports?

Learning Resources: Locally available art/craft materials; drawing and painting tools; musical instruments/recorder; audio resources; camera or digital device; sports equipment; safe playing space; learner's book.

Organization of Learning Learners work individually, in pairs and in groups. Practical activities are adapted for inclusion, learner ability, available facilities and weather. Use safe equipment, adequate space, hydration and appropriate supervision.

Lesson Development

5 minutes – Introduction

Learners observe a relevant artwork, craft sample, musical example, drama extract, sports demonstration or visual prompt related to “3.1 Analysis of Creative Arts and Sports”. They share prior knowledge and consider: How can we analyse and appreciate Creative Arts and Sports?

30 minutes – Lesson Development

Learning experiences from the annual scheme: The learner is guided to present or demonstrate work; participate in peer appreciation; reflect on strengths and areas for improvement; and organise evidence in a portfolio. The learner is guided to observe artworks, music, drama and sports performances; use agreed criteria to analyse elements and techniques; compare interpretations; complete a simple review; and provide respectful peer feedback.

Step 1: Learners identify the purpose, basic rules, movement patterns and safety requirements of the activity through demonstration and discussion.

Step 2: Learners warm up appropriately and practise basic skills individually or in small groups using safe, modified activities.

Step 3: Learners apply the skills in structured drills or a small-sided activity, taking turns and following agreed rules.

Step 4: Learners cool down, reflect on performance and give respectful feedback on teamwork, fair play and safe participation.

Extended Activities

Learners who complete the task extend their work by refining a composition, creating a variation, practising an additional skill or documenting a creative/sporting portfolio. Learners needing support use simplified patterns, adapted equipment, peer pairing and additional guided practice. Ensure inclusive participation, safe space, suitable equipment, hydration and appropriate supervision; do not require unsafe stunts or activities beyond learners' ability.

5 minutes – Conclusion

Learners share one skill or idea gained and respond to the inquiry question: How can we analyse and appreciate Creative Arts and Sports? They identify one strength and one next step for improving their creative work or sporting performance.

Assessment

Suggested assessment evidence: Observation checklist, skill demonstration, performance rubric, learner portfolio, practical product, oral questions, peer/self-assessment and reflection.

Reflection in the lesson / self-remarks

After teaching, record evidence of learners' knowledge, practical skill development, creativity, expression, teamwork, inclusion and safe participation. Note equipment/facility issues, learners needing support and the next instructional step.

Implementation Notes

This collection contains 150 core Grade 9 Creative Arts and Sports lesson plans across three terms, based on the teacher-prepared annual scheme and the 2024 KICD curriculum design summary.

The core allocation is 50 lessons per term (10 teaching weeks at five lessons per week), a planning arrangement. KICD also lists an optional choice of Swimming OR Kenyan Indigenous Games (10 lessons). That optional choice is not included in the 150 core lessons; select and schedule it according to learner needs, facilities, safety and school context.

This is an original teacher-prepared resource, not an official KICD publication. Adapt practical activities to learner ability, inclusion needs, facilities, weather and safety requirements.

Curriculum reference: KICD Grade 9 Creative Arts and Sports Curriculum Design (2024): https://kicd.ac.ke/wp-content/uploads/2024/06/FG9-Creative-Arts-Sports-26-6-2024.pdf
