GRADE 9 SOCIAL STUDIES
FULL-YEAR SCHEME OF WORK

Teacher-prepared planning document aligned to the KICD Grade 9 Social Studies Curriculum Design

Planning note: The KICD curriculum design suggests 120 lessons across 18 sub-strands. This scheme schedules 40 lessons per term (4 lessons per week over 10 teaching weeks). The term split is a school-planning proposal, not a term allocation prescribed by KICD. Community Service-Learning activities should be planned with appropriate school and community guidance, safeguarding and permissions.

School: _____	Teacher: _____	TSC No.: _____	Year: _____
Learning Area: Social Studies	Grade: 9	Term: All Terms	Lessons: 120

TERM 1

WK	LSN	STRAND	SUB-STRAND	LESSON LEARNING OUTCOMES	LEARNING EXPERIENCES	KEY INQUIRY QUESTIONS	LEARNING RESOURCES	ASSESSMENT METHODS	REFLECTION
1	1	1.0 Social Studies and Career Development	1.1 Pathway Choices	At the end of the lesson, the learner should be able to: Knowledge: Identify factors to consider when selecting a pathway at Senior School. Skills: Select a possible track within the Social Sciences pathway based on interests and abilities. Attitude: demonstrate respect, integrity, cooperation and responsibility when engaging with people, society and the environment.	The learner is guided to observe maps, pictures, artefacts or examples; identify key features; discuss prior knowledge in pairs; and record findings. The learner is guided to brainstorm the meaning of a career pathway; discuss factors to consider when selecting a pathway; use print or digital resources to examine Social Sciences pathway requirements; create and display pathway charts; reflect on a possible track.	Why is it important to learn about career pathways?	KICD curriculum design; Social Studies learner's book; maps/atlases; charts; Constitution extracts; print/digital sources; locally available resource persons as appropriate.	Oral questioning, map/source interpretation, written tasks, observation checklist, project portfolio, presentation and peer/self-assessment.	_____
1	2	1.0 Social Studies and Career Development	1.1 Pathway Choices	At the end of the lesson, the learner should be able to: Knowledge: Examine requirements for the Social Sciences pathway and its tracks. Skills: Select a possible track within the Social Sciences pathway based on interests and abilities. Attitude: demonstrate respect, integrity, cooperation and responsibility when engaging with people, society and the environment.	The learner is guided to read relevant print or digital sources; compare information in groups; interpret evidence; and present conclusions. The learner is guided to brainstorm the meaning of a career pathway; discuss factors to consider when selecting a pathway; use print or digital resources to examine Social Sciences pathway requirements; create and display pathway charts; reflect on a possible track.	Why is it important to learn about career pathways?	KICD curriculum design; Social Studies learner's book; maps/atlases; charts; Constitution extracts; print/digital sources; locally available resource persons as appropriate.	Oral questioning, map/source interpretation, written tasks, observation checklist, project portfolio, presentation and peer/self-assessment.	_____
1	3	1.0 Social Studies and Career Development	1.1 Pathway Choices	At the end of the lesson, the learner should be able to: Knowledge: Select a possible track within the Social Sciences pathway based on interests and abilities. Skills: Select a possible track within the Social Sciences	The learner is guided to investigate a case study or local example; organise evidence in a chart, map or timeline; and discuss its significance. The learner is guided to brainstorm the meaning of a career pathway; discuss	Why is it important to learn about career pathways? Oral questioning, map/source interpretation, written tasks, observation checklist, project portfolio, presentation and peer/self-assessment.	_____

				pathway based on interests and abilities. Attitude: demonstrate respect, integrity, cooperation and responsibility when engaging with people, society and the environment.	factors to consider when selecting a pathway; use print or digital resources to examine Social Sciences pathway requirements; create and display pathway charts; reflect on a possible track.				
1	4	1.0 Social Studies and Career Development	1.1 Pathway Choices	At the end of the lesson, the learner should be able to: Knowledge: Identify factors to consider when selecting a pathway at Senior School. Skills: Select a possible track within the Social Sciences pathway based on interests and abilities. Attitude: demonstrate respect, integrity, cooperation and responsibility when engaging with people, society and the environment.	The learner is guided to apply the learning in a practical or scenario-based task; evaluate ideas using agreed criteria; and reflect on responsible action. The learner is guided to brainstorm the meaning of a career pathway; discuss factors to consider when selecting a pathway; use print or digital resources to examine Social Sciences pathway requirements; create and display pathway charts; reflect on a possible track.	Why is it important to learn about career pathways?	KICD curriculum design; Social Studies learner's book; maps/atlases; charts; Constitution extracts; print/digital sources; locally available resource persons as appropriate.	Oral questioning, map/source interpretation, written tasks, observation checklist, project portfolio, presentation and peer/self-assessment.	_____
2	1	1.0 Social Studies and Career Development	1.2 Pre-career Support Systems	At the end of the lesson, the learner should be able to: Knowledge: Identify pre-career support systems available to learners. Skills: Seek appropriate support when exploring a possible career pathway. Attitude: demonstrate respect, integrity, cooperation and responsibility when engaging with people, society and the environment.	The learner is guided to observe maps, pictures, artefacts or examples; identify key features; discuss prior knowledge in pairs; and record findings. The learner is guided to identify guidance and counselling, mentorship, career talks, family and community support; interview or listen to a resource person; discuss how support systems inform decisions; prepare a directory of available support.	How do pre-career support systems help learners make informed choices?	KICD curriculum design; Social Studies learner's book; maps/atlases; charts; Constitution extracts; print/digital sources; locally available resource persons as appropriate.	Oral questioning, map/source interpretation, written tasks, observation checklist, project portfolio, presentation and peer/self-assessment.	_____
2	2	1.0 Social Studies and Career Development	1.2 Pre-career Support Systems	At the end of the lesson, the learner should be able to: Knowledge: Explain how support systems assist learners in making career decisions. Skills: Seek appropriate support when exploring a possible career pathway. Attitude: demonstrate respect, integrity, cooperation and responsibility when engaging with people, society and the environment.	The learner is guided to read relevant print or digital sources; compare information in groups; interpret evidence; and present conclusions. The learner is guided to identify guidance and counselling, mentorship, career talks, family and community support; interview or listen to a resource person; discuss how support systems inform decisions; prepare a directory of available support.	How do pre-career support systems help learners make informed choices? Oral questioning, map/source interpretation, written tasks, observation checklist, project portfolio, presentation and peer/self-assessment.	_____
3	1	2.0 Community Service-Learning	2.1 Community Service-Learning Project	At the end of the lesson, the learner should be able to: Knowledge: Identify a community need that can be addressed through a service-learning project. Skills: Evaluate the impact of the project and reflect on responsible citizenship. Attitude: demonstrate respect, integrity, cooperation and responsibility when engaging with people, society and the environment.	The learner is guided to observe maps, pictures, artefacts or examples; identify key features; discuss prior knowledge in pairs; and record findings. The learner is guided to conduct a simple needs assessment; consult relevant community members; agree on a manageable project; develop objectives, roles, resources and timeline; implement activities safely; document evidence; evaluate outcomes and present reflections.	How can learners contribute to addressing needs in their community?	KICD curriculum design; Social Studies learner's book; maps/atlases; charts; Constitution extracts; print/digital sources; locally available resource persons as appropriate.	Oral questioning, map/source interpretation, written tasks, observation checklist, project portfolio, presentation and peer/self-assessment.	_____
3	2	2.0 Community Service-Learning	2.1 Community Service-Learning Project	At the end of the lesson, the learner should be able to: Knowledge: Plan and implement a collaborative project that responds to the identified need. Skills: Evaluate the impact of the project and reflect on responsible citizenship. Attitude: demonstrate respect, integrity, cooperation and responsibility when engaging with people, society and the environment.	The learner is guided to read relevant print or digital sources; compare information in groups; interpret evidence; and present conclusions. The learner is guided to conduct a simple needs assessment; consult relevant community members; agree on a manageable project; develop objectives, roles, resources and timeline; implement activities safely; document evidence; evaluate outcomes and present reflections.	How can learners contribute to addressing needs in their community?
