GRADE 8 SOCIAL STUDIES – RECORDS OF WORK

School: _____ Teacher: _____ TSC No.: _____

Learning Area: Social Studies Grade: 8 Year: 2027 Full Year

eek	Lesson	Date	Strand	Sub-strand	Work Covered	Sign
	1	_____ __	1.0 Social Studies and Personal Management	1.1 Self-Improvement	Learners identified, discussed and recorded key information about personality traits and self-understanding. They completed related group or individual activities and shared their findings.	_____ __
	2	_____ __	1.0 Social Studies and Personal Management	1.1 Self-Improvement	Learners identified, discussed and recorded key information about personal goals for social and career development. They completed related group or individual activities and shared their findings.	_____ __
	3	_____ __	1.0 Social Studies and Personal Management	1.1 Self-Improvement	Learners identified, discussed and recorded key information about values and personality traits. They completed related group or individual activities and shared their findings.	_____ __
	4	_____ __	1.0 Social Studies and Personal Management	1.1 Self-Improvement	Learners identified, discussed and recorded key information about sharing goals and reflecting on personal development. They completed related group or individual activities and shared their findings.	_____ __
	1	_____ __	1.0 Social Studies and Personal Management	1.2 Self-Esteem Assessment	Learners identified, discussed and recorded key information about contribution of self-esteem. They completed related group or individual activities and shared their findings.	_____ __
	2	_____ __	1.0 Social Studies and Personal Management	1.2 Self-Esteem Assessment	Learners identified, discussed and recorded key information about effects of unhealthy self-esteem. They completed related group or individual activities and shared their findings.	_____ __
	3	_____ __	1.0 Social Studies and Personal Management	1.2 Self-Esteem Assessment	Learners identified, discussed and recorded key information about self-assessment in social interactions. They completed related group or individual activities and shared their findings.	_____ __
	4	_____ __	1.0 Social Studies and Personal Management	1.2 Self-Esteem Assessment	Learners identified, discussed and recorded key information about seeking help and self-improvement. They completed related group or individual activities and shared their findings.	_____ __
	1	_____ __	2.0 Community Service Learning	2.1 Community Service Learning Project	Learners identified, discussed and recorded key information about identifying a community problem or gap. They completed related group or individual activities and shared their findings.	_____ __
	2	_____ __	2.0 Community Service Learning	2.1 Community Service Learning Project	Learners identified, discussed and recorded key information about validating the problem and agreeing on a project title. They completed related group or individual activities and shared their findings.	_____ __
	3	_____ __	2.0 Community Service Learning	2.1 Community Service Learning Project	Learners identified, discussed and recorded key information about researching and designing possible solutions. They completed related group or individual activities and shared their findings.	_____ __
	4	_____ __	2.0 Community Service Learning	2.1 Community Service Learning Project	Learners identified, discussed and recorded key information about planning project implementation. They completed related group or individual activities and shared their findings.	_____ __
	1	_____ __	2.0 Community Service Learning	2.1 Community Service Learning Project	Learners identified, discussed and recorded key information about organising resources and responsibilities. They completed related group or individual activities and shared their findings.	_____ __
	2	_____ __	2.0 Community Service Learning	2.1 Community Service Learning Project	Learners identified, discussed and recorded key information about implementing the project plan. They completed related group or individual activities and shared their findings.	_____ __
	3	_____ __	2.0 Community Service Learning	2.1 Community Service Learning Project	Learners identified, discussed and recorded key information about monitoring and reflecting on project progress. They completed related group or individual activities and shared their findings.	_____ __
	4	_____ __	2.0 Community Service Learning	2.1 Community Service Learning Project	Learners identified, discussed and recorded key information about reporting and accounting for the concluded project. They completed related group or individual activities and shared their findings.	_____ __
	1	_____ __	3.0 People and Relationships	3.1 Scientific Theory about Human Origin	Learners identified, discussed and recorded key information about scientific theory about human origin. They completed related group or individual activities and shared their findings.	_____ __

eek	Lesson	Date	Strand	Sub-strand	Work Covered	Sign
	2	_____	3.0 People and Relationships	3.1 Scientific Theory about Human Origin	Learners identified, discussed and recorded key information about prehistoric human remains in Africa. They completed related group or individual activities and shared their findings.	_____
	3	_____	3.0 People and Relationships	3.1 Scientific Theory about Human Origin	Learners identified, discussed and recorded key information about stages and changes in human evolution. They completed related group or individual activities and shared their findings.	_____
	4	_____	3.0 People and Relationships	3.1 Scientific Theory about Human Origin	Learners identified, discussed and recorded key information about comparing early human species. They completed related group or individual activities and shared their findings.	_____
	1	_____	3.0 People and Relationships	3.1 Scientific Theory about Human Origin	Learners identified, discussed and recorded key information about preservation of early human remains. They completed related group or individual activities and shared their findings.	_____
	2	_____	3.0 People and Relationships	3.1 Scientific Theory about Human Origin	Learners identified, discussed and recorded key information about Africa as the cradle of humanity. They completed related group or individual activities and shared their findings.	_____
	3	_____	3.0 People and Relationships	3.2 Early Civilisations: Asia and Europe	Learners identified, discussed and recorded key information about origins of early visitors to the East African coast. They completed related group or individual activities and shared their findings.	_____
	4	_____	3.0 People and Relationships	3.2 Early Civilisations: Asia and Europe	Learners identified, discussed and recorded key information about locating places of origin in Asia and Europe. They completed related group or individual activities and shared their findings.	_____
	1	_____	3.0 People and Relationships	3.2 Early Civilisations: Asia and Europe	Learners identified, discussed and recorded key information about Swahili civilisation along the East African coast. They completed related group or individual activities and shared their findings.	_____
	2	_____	3.0 People and Relationships	3.2 Early Civilisations: Asia and Europe	Learners identified, discussed and recorded key information about growth of East African city states. They completed related group or individual activities and shared their findings.	_____
	3	_____	3.0 People and Relationships	3.2 Early Civilisations: Asia and Europe	Learners identified, discussed and recorded key information about cultural exchange and heritage. They completed related group or individual activities and shared their findings.	_____
	4	_____	3.0 People and Relationships	3.2 Early Civilisations: Asia and Europe	Learners identified, discussed and recorded key information about best practices from early civilisations. They completed related group or individual activities and shared their findings.	_____
	1	_____	3.0 People and Relationships	3.2 Early Civilisations: Asia and Europe	Learners identified, discussed and recorded key information about contributions of early civilisations to the modern world. They completed related group or individual activities and shared their findings.	_____
	2	_____	3.0 People and Relationships	3.2 Early Civilisations: Asia and Europe	Learners identified, discussed and recorded key information about appreciating cultural heritage. They completed related group or individual activities and shared their findings.	_____
	3	_____	3.0 People and Relationships	3.3 Trans-Saharan Slave Trade	Learners identified, discussed and recorded key information about factors leading to the trade. They completed related group or individual activities and shared their findings.	_____
	4	_____	3.0 People and Relationships	3.3 Trans-Saharan Slave Trade	Learners identified, discussed and recorded key information about organisation and routes of the trade. They completed related group or individual activities and shared their findings.	_____
	1	_____	3.0 People and Relationships	3.3 Trans-Saharan Slave Trade	Learners identified, discussed and recorded key information about regions where enslaved people were sourced. They completed related group or individual activities and shared their findings.	_____
	2	_____	3.0 People and Relationships	3.3 Trans-Saharan Slave Trade	Learners identified, discussed and recorded key information about effects of the trade. They completed related group or individual activities and shared their findings.	_____
	3	_____	3.0 People and Relationships	3.3 Trans-Saharan Slave Trade	Learners identified, discussed and recorded key information about mapping the Trans-Saharan slave trade. They completed related group or individual activities and shared their findings.	_____
	4	_____	3.0 People and Relationships	3.3 Trans-Saharan Slave Trade	Learners identified, discussed and recorded key information about social justice and assertiveness. They completed related group or individual activities and shared their findings.	_____

	1	_____	3.0 People and Relationships	3.4 Population Growth in Africa	Learners identified, discussed and recorded key information about causes of population growth. They completed related group or individual activities and shared their findings.	_____
	2	_____	3.0 People and Relationships	3.4 Population Growth in Africa	Learners identified, discussed and recorded key information about effects of population growth in Africa. They completed related group or individual activities and shared their findings.	_____
	3	_____	3.0 People and Relationships	3.4 Population Growth in Africa	Learners identified, discussed and recorded key information about types of migration. They completed related group or individual activities and shared their findings.	_____
	4	_____	3.0 People and Relationships	3.4 Population Growth in Africa	Learners identified, discussed and recorded key information about factors influencing migration in Africa. They completed related group or individual activities and shared their findings.	_____
	1	_____	3.0 People and Relationships	3.4 Population Growth in Africa	Learners identified, discussed and recorded key information about demographic trends in Kenya using census data. They completed related group or individual activities and shared their findings.	_____
	2	_____	3.0 People and Relationships	3.4 Population Growth in Africa	Learners identified, discussed and recorded key information about community awareness and managing effects of population growth. They completed related group or individual activities and shared their findings.	_____
	3	_____	3.0 People and Relationships	3.5 Diversity and Interpersonal Skills	Learners identified, discussed and recorded key information about socio-cultural diversity in Kenya. They completed related group or individual activities and shared their findings.	_____
	4	_____	3.0 People and Relationships	3.5 Diversity and Interpersonal Skills	Learners identified, discussed and recorded key information about personal beliefs and social cohesion. They completed related group or individual activities and shared their findings.	_____
	1	_____	3.0 People and Relationships	3.5 Diversity and Interpersonal Skills	Learners identified, discussed and recorded key information about healthy self-esteem in a diverse society. They completed related group or individual activities and shared their findings.	_____
	2	_____	3.0 People and Relationships	3.5 Diversity and Interpersonal Skills	Learners identified, discussed and recorded key information about emotions and their impact on self and others. They completed related group or individual activities and shared their findings.	_____
	3	_____	3.0 People and Relationships	3.5 Diversity and Interpersonal Skills	Learners identified, discussed and recorded key information about managing emotions in diverse environments. They completed related group or individual activities and shared their findings.	_____
	4	_____	3.0 People and Relationships	3.5 Diversity and Interpersonal Skills	Learners identified, discussed and recorded key information about managing peer pressure and promoting inclusion. They completed related group or individual activities and shared their findings.	_____
	1	_____	3.0 People and Relationships	3.5 Diversity and Interpersonal Skills	Learners identified, discussed and recorded key information about positive and risky peer influence. They completed related group or individual activities and shared their findings.	_____
	2	_____	3.0 People and Relationships	3.5 Diversity and Interpersonal Skills	Learners identified, discussed and recorded key information about respecting and appreciating diversity. They completed related group or individual activities and shared their findings.	_____
	3	_____	3.0 People and Relationships	3.6 Peaceful Conflict Resolution	Learners identified, discussed and recorded key information about situations that lead to family conflicts. They completed related group or individual activities and shared their findings.	_____
	4	_____	3.0 People and Relationships	3.6 Peaceful Conflict Resolution	Learners identified, discussed and recorded key information about peaceful approaches to resolving conflicts. They completed related group or individual activities and shared their findings.	_____
	1	_____	3.0 People and Relationships	3.6 Peaceful Conflict Resolution	Learners identified, discussed and recorded key information about negotiation as a conflict-resolution approach. They completed related group or individual activities and shared their findings.	_____
	2	_____	3.0 People and Relationships	3.6 Peaceful Conflict Resolution	Learners identified, discussed and recorded key information about mediation and arbitration. They completed related group or individual activities and shared their findings.	_____
	3	_____	3.0 People and Relationships	3.6 Peaceful Conflict Resolution	Learners identified, discussed and recorded key information about effective communication in conflict resolution. They completed related group or individual activities and shared their findings.	_____

eek	Lesson	Date	Strand	Sub-strand	Work Covered	Sign
	4	_____	3.0 People and Relationships	3.6 Peaceful Conflict Resolution	Learners identified, discussed and recorded key information about building healthy family relationships and empathy. They completed related group or individual activities and shared their findings.	_____
	1	_____	3.0 People and Relationships	3.6 Peaceful Conflict Resolution	Learners identified, discussed and recorded key information about promoting a culture of peace. They completed related group or individual activities and shared their findings.	_____
	2	_____	3.0 People and Relationships	3.6 Peaceful Conflict Resolution	Learners identified, discussed and recorded key information about reflecting on peaceful conflict resolution. They completed related group or individual activities and shared their findings.	_____
	3	_____	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation	Learners identified, discussed and recorded key information about marginal information on maps. They completed related group or individual activities and shared their findings.	_____
	4	_____	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation	Learners identified, discussed and recorded key information about types and uses of map scales. They completed related group or individual activities and shared their findings.	_____
	1	_____	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation	Learners identified, discussed and recorded key information about scale conversion. They completed related group or individual activities and shared their findings.	_____
	2	_____	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation	Learners identified, discussed and recorded key information about measuring distances on topographical maps. They completed related group or individual activities and shared their findings.	_____
	3	_____	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation	Learners identified, discussed and recorded key information about calculating areas on topographical maps. They completed related group or individual activities and shared their findings.	_____
	4	_____	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation	Learners identified, discussed and recorded key information about methods of representing drainage features. They completed related group or individual activities and shared their findings.	_____
	1	_____	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation	Learners identified, discussed and recorded key information about methods of representing relief features. They completed related group or individual activities and shared their findings.	_____
	2	_____	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation	Learners identified, discussed and recorded key information about methods of representing vegetation. They completed related group or individual activities and shared their findings.	_____
	3	_____	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation	Learners identified, discussed and recorded key information about interpreting physical features on maps. They completed related group or individual activities and shared their findings.	_____
	4	_____	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation	Learners identified, discussed and recorded key information about observation and analysis in map interpretation. They completed related group or individual activities and shared their findings.	_____
	1	_____	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation	Learners identified, discussed and recorded key information about inference and communication in map interpretation. They completed related group or individual activities and shared their findings.	_____
	2	_____	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation	Learners identified, discussed and recorded key information about applying map reading in day-to-day life. They completed related group or individual activities and shared their findings.	_____
	3	_____	4.0 Natural and Historic Built Environments	4.2 Weather and Climate	Learners identified, discussed and recorded key information about factors influencing climate in Africa. They completed related group or individual activities and shared their findings.	_____
	4	_____	4.0 Natural and Historic Built Environments	4.2 Weather and Climate	Learners identified, discussed and recorded key information about distribution of climatic regions in Africa. They completed related group or individual activities and shared their findings.	_____
	1	_____	4.0 Natural and Historic Built Environments	4.2 Weather and Climate	Learners identified, discussed and recorded key information about desert and semi-desert climates. They completed related group or individual activities and shared their findings.	_____
	2	_____	4.0 Natural and Historic Built Environments	4.2 Weather and Climate	Learners identified, discussed and recorded key information about tropical climate. They completed related group or individual activities and shared their findings.	_____

eek	Lesson	Date	Strand	Sub-strand	Work Covered	Sign
	3	_____	4.0 Natural and Historic Built Environments	4.2 Weather and Climate	Learners identified, discussed and recorded key information about Mediterranean and mountain climates. They completed related group or individual activities and shared their findings.	_____
	4	_____	4.0 Natural and Historic Built Environments	4.2 Weather and Climate	Learners identified, discussed and recorded key information about characteristics of major climatic regions. They completed related group or individual activities and shared their findings.	_____
	1	_____	4.0 Natural and Historic Built Environments	4.2 Weather and Climate	Learners identified, discussed and recorded key information about climate change: causes and effects. They completed related group or individual activities and shared their findings.	_____
	2	_____	4.0 Natural and Historic Built Environments	4.2 Weather and Climate	Learners identified, discussed and recorded key information about climate and human activities. They completed related group or individual activities and shared their findings.	_____
	3	_____	4.0 Natural and Historic Built Environments	4.2 Weather and Climate	Learners identified, discussed and recorded key information about managing disaster-related stress. They completed related group or individual activities and shared their findings.	_____
	4	_____	4.0 Natural and Historic Built Environments	4.2 Weather and Climate	Learners identified, discussed and recorded key information about problem-solving approaches to climate change. They completed related group or individual activities and shared their findings.	_____
	1	_____	4.0 Natural and Historic Built Environments	4.3 Vegetation in Africa	Learners identified, discussed and recorded key information about factors influencing vegetation distribution. They completed related group or individual activities and shared their findings.	_____
	2	_____	4.0 Natural and Historic Built Environments	4.3 Vegetation in Africa	Learners identified, discussed and recorded key information about local vegetation field observation. They completed related group or individual activities and shared their findings.	_____
	3	_____	4.0 Natural and Historic Built Environments	4.3 Vegetation in Africa	Learners identified, discussed and recorded key information about major vegetation regions of Africa. They completed related group or individual activities and shared their findings.	_____
	4	_____	4.0 Natural and Historic Built Environments	4.3 Vegetation in Africa	Learners identified, discussed and recorded key information about characteristics of vegetation regions. They completed related group or individual activities and shared their findings.	_____
	1	_____	4.0 Natural and Historic Built Environments	4.3 Vegetation in Africa	Learners identified, discussed and recorded key information about locating vegetation regions on a map. They completed related group or individual activities and shared their findings.	_____
	2	_____	4.0 Natural and Historic Built Environments	4.3 Vegetation in Africa	Learners identified, discussed and recorded key information about methods of conserving vegetation. They completed related group or individual activities and shared their findings.	_____
	3	_____	4.0 Natural and Historic Built Environments	4.3 Vegetation in Africa	Learners identified, discussed and recorded key information about vegetation conservation and related careers. They completed related group or individual activities and shared their findings.	_____
	4	_____	4.0 Natural and Historic Built Environments	4.3 Vegetation in Africa	Learners identified, discussed and recorded key information about vegetation conservation for sustainability. They completed related group or individual activities and shared their findings.	_____
	1	_____	4.0 Natural and Historic Built Environments	4.4 Historical Sites and Monuments in Africa	Learners identified, discussed and recorded key information about locating historical sites and monuments in Africa. They completed related group or individual activities and shared their findings.	_____
	2	_____	4.0 Natural and Historic Built Environments	4.4 Historical Sites and Monuments in Africa	Learners identified, discussed and recorded key information about Fort Jesus and Kilwa. They completed related group or individual activities and shared their findings.	_____
	3	_____	4.0 Natural and Historic Built Environments	4.4 Historical Sites and Monuments in Africa	Learners identified, discussed and recorded key information about Great Zimbabwe and Giza pyramids. They completed related group or individual activities and shared their findings.	_____
	4	_____	4.0 Natural and Historic Built Environments	4.4 Historical Sites and Monuments in Africa	Learners identified, discussed and recorded key information about Meroe and Timbuktu. They completed related group or individual activities and shared their findings.	_____
	1	_____	4.0 Natural and Historic Built Environments	4.4 Historical Sites and Monuments in Africa	Learners identified, discussed and recorded key information about Robben Island and other heritage sites. They completed related group or individual activities and shared their findings.	_____
