GRADE 8 SOCIAL STUDIES – SCHEME OF WORK

School: _____ Teacher: _____ TSC No.: _____

Grade 8 • Year 2027 • Full Year • 4 lessons per week (40 minutes each)

Based on KICD Junior School Curriculum Design: Social Studies Grade 8, Revised 2024. KICD suggests 120 lessons; term sequencing is a teacher planning arrangement. Remaining periods are reserved for assessment, feedback, remediation, revision and school-based activities.

WK	LSN	STRAND	SUB-STRAND / FOCUS	LESSON LEARNING OUTCOMES	LEARNING EXPERIENCES	KEY INQUIRY QUESTIONS	LEARNING RESOURCES	ASSESSMENT METHODS	REFLECTION
1	1	1.0 Social Studies and Personal Management	1.1 Self-Improvement **Focus:** personality traits	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to personality traits. Skills: Identify, discuss, interpret or demonstrate personality traits. Attitudes: Appreciate the importance of personality traits in personal and community life.	In groups, learners are guided to: personality traits; research or discuss the issue using suitable print/digital resources; record findings and present them.	Which animal best reflects your personal characteristics?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
1	2	1.0 Social Studies and Personal Management	1.1 Self-Improvement **Focus:** self-understanding	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to self-understanding. Skills: Identify, discuss, interpret or demonstrate self-understanding. Attitudes: Appreciate the importance of self-understanding in personal and community life.	In groups, learners are guided to: self-understanding; research or discuss the issue using suitable print/digital resources; record findings and present them.	Which animal best reflects your personal characteristics?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
1	3	1.0 Social Studies and Personal Management	1.1 Self-Improvement **Focus:** personal life goals	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to personal life goals. Skills: Identify, discuss, interpret or demonstrate personal life goals. Attitudes: Appreciate the importance of personal life goals in personal and community life.	In groups, learners are guided to: personal life goals; research or discuss the issue using suitable print/digital resources; record findings and present them.	Which animal best reflects your personal characteristics?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
1	4	1.0 Social Studies and Personal Management	1.1 Self-Improvement **Focus:** values in career choices	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to values in career choices. Skills: Identify, discuss, interpret or demonstrate values in career choices. Attitudes: Appreciate the importance of values in career choices in personal and community life.	In groups, learners are guided to: values in career choices; research or discuss the issue using suitable print/digital resources; record findings and present them.	Which animal best reflects your personal characteristics?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
2	1	1.0 Social Studies and Personal Management	1.2 Self-Esteem Assessment **Focus:** contribution of self-esteem	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to contribution of self-esteem. Skills: Identify, discuss, interpret or demonstrate contribution of self-esteem. Attitudes: Appreciate the importance of contribution of self-esteem in personal and community life.	In groups, learners are guided to: contribution of self-esteem; research or discuss the issue using suitable print/digital resources; record findings and present them.	How does self-esteem affect my holistic development?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
2	2	1.0 Social Studies and Personal Management	1.2 Self-Esteem Assessment **Focus:** effects of unhealthy self-esteem	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to effects of unhealthy self-esteem. Skills: Identify, discuss, interpret or demonstrate effects of unhealthy self-esteem. Attitudes: Appreciate the importance of effects of unhealthy self-esteem in personal and community life.	In groups, learners are guided to: effects of unhealthy self-esteem; research or discuss the issue using suitable print/digital resources; record findings and present them.	How does self-esteem affect my holistic development?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____

WK	LSN	STRAND	SUB-STRAND / FOCUS	LESSON LEARNING OUTCOMES	LEARNING EXPERIENCES	KEY INQUIRY QUESTIONS	LEARNING RESOURCES	ASSESSMENT METHODS	REFLECTION
2	3	1.0 Social Studies and Personal Management	1.2 Self-Esteem Assessment **Focus:** self-assessment in social interactions	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to self-assessment in social interactions. Skills: Identify, discuss, interpret or demonstrate self-assessment in social interactions. Attitudes: Appreciate the importance of self-assessment in social interactions in personal and community life.	In groups, learners are guided to: self-assessment in social interactions; research or discuss the issue using suitable print/digital resources; record findings and present them.	How does self-esteem affect my holistic development?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
2	4	1.0 Social Studies and Personal Management	1.2 Self-Esteem Assessment **Focus:** seeking help and self-improvement	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to seeking help and self-improvement. Skills: Identify, discuss, interpret or demonstrate seeking help and self-improvement. Attitudes: Appreciate the importance of seeking help and self-improvement in personal and community life.	In groups, learners are guided to: seeking help and self-improvement; research or discuss the issue using suitable print/digital resources; record findings and present them.	How does self-esteem affect my holistic development?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
3	1	2.0 Community Service Learning	2.1 Community Service Learning Project **Focus:** identify a community gap	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to identify a community gap. Skills: Identify, discuss, interpret or demonstrate identify a community gap. Attitudes: Appreciate the importance of identify a community gap in personal and community life.	In groups, learners are guided to: identify a community gap; research or discuss the issue using suitable print/digital resources; record findings and present them.	How does one determine gaps or needs in the community?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
3	2	2.0 Community Service Learning	2.1 Community Service Learning Project **Focus:** state the project problem	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to state the project problem. Skills: Identify, discuss, interpret or demonstrate state the project problem. Attitudes: Appreciate the importance of state the project problem in personal and community life.	In groups, learners are guided to: state the project problem; research or discuss the issue using suitable print/digital resources; record findings and present them.	How does one determine gaps or needs in the community?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
3	3	2.0 Community Service Learning	2.1 Community Service Learning Project **Focus:** design solutions	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to design solutions. Skills: Identify, discuss, interpret or demonstrate design solutions. Attitudes: Appreciate the importance of design solutions in personal and community life.	In groups, learners are guided to: design solutions; research or discuss the issue using suitable print/digital resources; record findings and present them.	How does one determine gaps or needs in the community?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
3	4	2.0 Community Service Learning	2.1 Community Service Learning Project **Focus:** plan implementation	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to plan implementation. Skills: Identify, discuss, interpret or demonstrate plan implementation. Attitudes: Appreciate the importance of plan implementation in personal and community life.	In groups, learners are guided to: plan implementation; research or discuss the issue using suitable print/digital resources; record findings and present them.	How does one determine gaps or needs in the community?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
4	1	2.0 Community Service Learning	2.1 Community Service Learning Project **Focus:** implement the plan	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to implement the plan. Skills: Identify, discuss, interpret or demonstrate implement the plan. Attitudes: Appreciate the importance of implement the plan in personal and community life.	In groups, learners are guided to: implement the plan; research or discuss the issue using suitable print/digital resources; record findings and present them.	How does one determine gaps or needs in the community?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____

WK	LSN	STRAND	SUB-STRAND / FOCUS	LESSON LEARNING OUTCOMES	LEARNING EXPERIENCES	KEY INQUIRY QUESTIONS	LEARNING RESOURCES	ASSESSMENT METHODS	REFLECTION
4	2	2.0 Community Service Learning	2.1 Community Service Learning Project **Focus:** report and reflect on the project	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to report and reflect on the project. Skills: Identify, discuss, interpret or demonstrate report and reflect on the project. Attitudes: Appreciate the importance of report and reflect on the project in personal and community life.	In groups, learners are guided to: report and reflect on the project; research or discuss the issue using suitable print/digital resources; record findings and present them.	How does one determine gaps or needs in the community?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
4	3	2.0 Community Service Learning	2.1 Community Service Learning Project **Focus:** report and reflect on the project	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to report and reflect on the project. Skills: Identify, discuss, interpret or demonstrate report and reflect on the project. Attitudes: Appreciate the importance of report and reflect on the project in personal and community life.	In groups, learners are guided to: report and reflect on the project; research or discuss the issue using suitable print/digital resources; record findings and present them.	How does one determine gaps or needs in the community?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
4	4	2.0 Community Service Learning	2.1 Community Service Learning Project **Focus:** report and reflect on the project	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to report and reflect on the project. Skills: Identify, discuss, interpret or demonstrate report and reflect on the project. Attitudes: Appreciate the importance of report and reflect on the project in personal and community life.	In groups, learners are guided to: report and reflect on the project; research or discuss the issue using suitable print/digital resources; record findings and present them.	How does one determine gaps or needs in the community?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
5	1	3.0 People and Relationships	3.1 Scientific Theory about Human Origin **Focus:** scientific theory of human origin	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to scientific theory of human origin. Skills: Identify, discuss, interpret or demonstrate scientific theory of human origin. Attitudes: Appreciate the importance of scientific theory of human origin in personal and community life.	In groups, learners are guided to: scientific theory of human origin; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is Africa considered the cradle of humanity?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
5	2	3.0 People and Relationships	3.1 Scientific Theory about Human Origin **Focus:** prehistoric remains in Africa	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to prehistoric remains in Africa. Skills: Identify, discuss, interpret or demonstrate prehistoric remains in Africa. Attitudes: Appreciate the importance of prehistoric remains in Africa in personal and community life.	In groups, learners are guided to: prehistoric remains in Africa; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is Africa considered the cradle of humanity?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
5	3	3.0 People and Relationships	3.1 Scientific Theory about Human Origin **Focus:** stages of human evolution	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to stages of human evolution. Skills: Identify, discuss, interpret or demonstrate stages of human evolution. Attitudes: Appreciate the importance of stages of human evolution in personal and community life.	In groups, learners are guided to: stages of human evolution; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is Africa considered the cradle of humanity?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
5	4	3.0 People and Relationships	3.1 Scientific Theory about Human Origin **Focus:** differences between early human species	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to differences between early human species. Skills: Identify, discuss, interpret or demonstrate differences between early human species. Attitudes: Appreciate the importance of differences between early human species in personal and community life.	In groups, learners are guided to: differences between early human species; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is Africa considered the cradle of humanity?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____

WK	LSN	STRAND	SUB-STRAND / FOCUS	LESSON LEARNING OUTCOMES	LEARNING EXPERIENCES	KEY INQUIRY QUESTIONS	LEARNING RESOURCES	ASSESSMENT METHODS	REFLECTION
6	1	3.0 People and Relationships	3.1 Scientific Theory about Human Origin **Focus:** preservation of remains	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to preservation of remains. Skills: Identify, discuss, interpret or demonstrate preservation of remains. Attitudes: Appreciate the importance of preservation of remains in personal and community life.	In groups, learners are guided to: preservation of remains; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is Africa considered the cradle of humanity?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
6	2	3.0 People and Relationships	3.1 Scientific Theory about Human Origin **Focus:** Africa as cradle of humanity	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to Africa as cradle of humanity. Skills: Identify, discuss, interpret or demonstrate Africa as cradle of humanity. Attitudes: Appreciate the importance of Africa as cradle of humanity in personal and community life.	In groups, learners are guided to: Africa as cradle of humanity; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is Africa considered the cradle of humanity?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
6	3	3.0 People and Relationships	3.2 Early Civilisations: Asia and Europe **Focus:** origins of early visitors to East African coast	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to origins of early visitors to East African coast. Skills: Identify, discuss, interpret or demonstrate origins of early visitors to East African coast. Attitudes: Appreciate the importance of origins of early visitors to East African coast in personal and community life.	In groups, learners are guided to: origins of early visitors to East African coast; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is cultural heritage important to society?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
6	4	3.0 People and Relationships	3.2 Early Civilisations: Asia and Europe **Focus:** map locations in Asia and Europe	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to map locations in Asia and Europe. Skills: Identify, discuss, interpret or demonstrate map locations in Asia and Europe. Attitudes: Appreciate the importance of map locations in Asia and Europe in personal and community life.	In groups, learners are guided to: map locations in Asia and Europe; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is cultural heritage important to society?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
7	1	3.0 People and Relationships	3.2 Early Civilisations: Asia and Europe **Focus:** Swahili civilisation	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to Swahili civilisation. Skills: Identify, discuss, interpret or demonstrate Swahili civilisation. Attitudes: Appreciate the importance of Swahili civilisation in personal and community life.	In groups, learners are guided to: Swahili civilisation; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is cultural heritage important to society?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
7	2	3.0 People and Relationships	3.2 Early Civilisations: Asia and Europe **Focus:** growth of East African city states	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to growth of East African city states. Skills: Identify, discuss, interpret or demonstrate growth of East African city states. Attitudes: Appreciate the importance of growth of East African city states in personal and community life.	In groups, learners are guided to: growth of East African city states; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is cultural heritage important to society?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
7	3	3.0 People and Relationships	3.2 Early Civilisations: Asia and Europe **Focus:** cultural heritage	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to cultural heritage. Skills: Identify, discuss, interpret or demonstrate cultural heritage. Attitudes: Appreciate the importance of cultural heritage in personal and community life.	In groups, learners are guided to: cultural heritage; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is cultural heritage important to society?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____

7	4	3.0 People and Relationships	3.2 Early Civilisations: Asia and Europe **Focus:** best practices and modern contributions	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to best practices and modern contributions. Skills: Identify, discuss, interpret or demonstrate best practices and modern contributions. Attitudes: Appreciate the importance of best practices and modern contributions in personal and community life.	In groups, learners are guided to: best practices and modern contributions; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is cultural heritage important to society?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
8	1	3.0 People and Relationships	3.2 Early Civilisations: Asia and Europe **Focus:** best practices and modern contributions	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to best practices and modern contributions. Skills: Identify, discuss, interpret or demonstrate best practices and modern contributions. Attitudes: Appreciate the importance of best practices and modern contributions in personal and community life.	In groups, learners are guided to: best practices and modern contributions; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is cultural heritage important to society?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
8	2	3.0 People and Relationships	3.2 Early Civilisations: Asia and Europe **Focus:** best practices and modern contributions	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to best practices and modern contributions. Skills: Identify, discuss, interpret or demonstrate best practices and modern contributions. Attitudes: Appreciate the importance of best practices and modern contributions in personal and community life.	In groups, learners are guided to: best practices and modern contributions; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is cultural heritage important to society?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
8	3	3.0 People and Relationships	3.3 Trans-Saharan Slave Trade **Focus:** factors leading to the trade	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to factors leading to the trade. Skills: Identify, discuss, interpret or demonstrate factors leading to the trade. Attitudes: Appreciate the importance of factors leading to the trade in personal and community life.	In groups, learners are guided to: factors leading to the trade; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why do people subject others to slave trade?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
8	4	3.0 People and Relationships	3.3 Trans-Saharan Slave Trade **Focus:** organisation and routes	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to organisation and routes. Skills: Identify, discuss, interpret or demonstrate organisation and routes. Attitudes: Appreciate the importance of organisation and routes in personal and community life.	In groups, learners are guided to: organisation and routes; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why do people subject others to slave trade?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
9	1	3.0 People and Relationships	3.3 Trans-Saharan Slave Trade **Focus:** regions where enslaved people were sourced	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to regions where enslaved people were sourced. Skills: Identify, discuss, interpret or demonstrate regions where enslaved people were sourced. Attitudes: Appreciate the importance of regions where enslaved people were sourced in personal and community life.	In groups, learners are guided to: regions where enslaved people were sourced; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why do people subject others to slave trade?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
9	2	3.0 People and Relationships	3.3 Trans-Saharan Slave Trade **Focus:** effects	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to effects. Skills: Identify, discuss, interpret or demonstrate effects. Attitudes: Appreciate the importance of effects in personal and community life.	In groups, learners are guided to: effects; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why do people subject others to slave trade?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____

9	3	3.0 People and Relationships	3.3 Trans-Saharan Slave Trade **Focus:** mapping the trade	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to mapping the trade. Skills: Identify, discuss, interpret or demonstrate mapping the trade. Attitudes: Appreciate the importance of mapping the trade in personal and community life.	In groups, learners are guided to: mapping the trade; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why do people subject others to slave trade?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
9	4	3.0 People and Relationships	3.3 Trans-Saharan Slave Trade **Focus:** social justice	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to social justice. Skills: Identify, discuss, interpret or demonstrate social justice. Attitudes: Appreciate the importance of social justice in personal and community life.	In groups, learners are guided to: social justice; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why do people subject others to slave trade?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
10	1	3.0 People and Relationships	3.4 Population Growth in Africa **Focus:** causes and effects of population growth	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to causes and effects of population growth. Skills: Identify, discuss, interpret or demonstrate causes and effects of population growth. Attitudes: Appreciate the importance of causes and effects of population growth in personal and community life.	In groups, learners are guided to: causes and effects of population growth; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is it important to study demographic changes?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
10	2	3.0 People and Relationships	3.4 Population Growth in Africa **Focus:** types of migration	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to types of migration. Skills: Identify, discuss, interpret or demonstrate types of migration. Attitudes: Appreciate the importance of types of migration in personal and community life.	In groups, learners are guided to: types of migration; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is it important to study demographic changes?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
10	3	3.0 People and Relationships	3.4 Population Growth in Africa **Focus:** factors influencing migration	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to factors influencing migration. Skills: Identify, discuss, interpret or demonstrate factors influencing migration. Attitudes: Appreciate the importance of factors influencing migration in personal and community life.	In groups, learners are guided to: factors influencing migration; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is it important to study demographic changes?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
10	4	3.0 People and Relationships	3.4 Population Growth in Africa **Focus:** demographic trends in Kenya	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to demographic trends in Kenya. Skills: Identify, discuss, interpret or demonstrate demographic trends in Kenya. Attitudes: Appreciate the importance of demographic trends in Kenya in personal and community life.	In groups, learners are guided to: demographic trends in Kenya; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is it important to study demographic changes?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
11	1	3.0 People and Relationships	3.4 Population Growth in Africa **Focus:** community awareness	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to community awareness. Skills: Identify, discuss, interpret or demonstrate community awareness. Attitudes: Appreciate the importance of community awareness in personal and community life.	In groups, learners are guided to: community awareness; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is it important to study demographic changes?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____

11	2	3.0 People and Relationships	3.4 Population Growth in Africa **Focus:** coping with rapid population growth	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to coping with rapid population growth. Skills: Identify, discuss, interpret or demonstrate coping with rapid population growth. Attitudes: Appreciate the importance of coping with rapid population growth in personal and community life.	In groups, learners are guided to: coping with rapid population growth; research or discuss the issue using suitable print/digital resources; record findings and present them.	Why is it important to study demographic changes?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
11	3	3.0 People and Relationships	3.5 Diversity and Interpersonal Skills **Focus:** socio-cultural diversity in Kenya	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to socio-cultural diversity in Kenya. Skills: Identify, discuss, interpret or demonstrate socio-cultural diversity in Kenya. Attitudes: Appreciate the importance of socio-cultural diversity in Kenya in personal and community life.	In groups, learners are guided to: socio-cultural diversity in Kenya; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can we demonstrate respect and appreciation of socio-cultural diversity and inclusion?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
11	4	3.0 People and Relationships	3.5 Diversity and Interpersonal Skills **Focus:** social cohesion	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to social cohesion. Skills: Identify, discuss, interpret or demonstrate social cohesion. Attitudes: Appreciate the importance of social cohesion in personal and community life.	In groups, learners are guided to: social cohesion; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can we demonstrate respect and appreciation of socio-cultural diversity and inclusion?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
12	1	3.0 People and Relationships	3.5 Diversity and Interpersonal Skills **Focus:** healthy self-esteem	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to healthy self-esteem. Skills: Identify, discuss, interpret or demonstrate healthy self-esteem. Attitudes: Appreciate the importance of healthy self-esteem in personal and community life.	In groups, learners are guided to: healthy self-esteem; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can we demonstrate respect and appreciation of socio-cultural diversity and inclusion?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
12	2	3.0 People and Relationships	3.5 Diversity and Interpersonal Skills **Focus:** emotions	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to emotions. Skills: Identify, discuss, interpret or demonstrate emotions. Attitudes: Appreciate the importance of emotions in personal and community life.	In groups, learners are guided to: emotions; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can we demonstrate respect and appreciation of socio-cultural diversity and inclusion?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
12	3	3.0 People and Relationships	3.5 Diversity and Interpersonal Skills **Focus:** peer pressure	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to peer pressure. Skills: Identify, discuss, interpret or demonstrate peer pressure. Attitudes: Appreciate the importance of peer pressure in personal and community life.	In groups, learners are guided to: peer pressure; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can we demonstrate respect and appreciation of socio-cultural diversity and inclusion?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
12	4	3.0 People and Relationships	3.5 Diversity and Interpersonal Skills **Focus:** inclusion	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to inclusion. Skills: Identify, discuss, interpret or demonstrate inclusion. Attitudes: Appreciate the importance of inclusion in personal and community life.	In groups, learners are guided to: inclusion; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can we demonstrate respect and appreciation of socio-cultural diversity and inclusion?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
13	1	3.0 People and Relationships	3.5 Diversity and Interpersonal Skills **Focus:** positive peer influence	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to positive peer influence. Skills: Identify, discuss, interpret or demonstrate positive peer influence. Attitudes: Appreciate the importance of positive peer influence in personal and community life.	In groups, learners are guided to: positive peer influence; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can we demonstrate respect and appreciation of socio-cultural diversity and inclusion?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____

13	2	3.0 People and Relationships	3.5 Diversity and Interpersonal Skills **Focus:** respect for diversity	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to respect for diversity. Skills: Identify, discuss, interpret or demonstrate respect for diversity. Attitudes: Appreciate the importance of respect for diversity in personal and community life.	In groups, learners are guided to: respect for diversity; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can we demonstrate respect and appreciation of socio-cultural diversity and inclusion?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
13	3	3.0 People and Relationships	3.6 Peaceful Conflict Resolution **Focus:** family conflict situations	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to family conflict situations. Skills: Identify, discuss, interpret or demonstrate family conflict situations. Attitudes: Appreciate the importance of family conflict situations in personal and community life.	In groups, learners are guided to: family conflict situations; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can resolving conflicts help us live peacefully in the community?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
13	4	3.0 People and Relationships	3.6 Peaceful Conflict Resolution **Focus:** peaceful resolution	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to peaceful resolution. Skills: Identify, discuss, interpret or demonstrate peaceful resolution. Attitudes: Appreciate the importance of peaceful resolution in personal and community life.	In groups, learners are guided to: peaceful resolution; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can resolving conflicts help us live peacefully in the community?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
14	1	3.0 People and Relationships	3.6 Peaceful Conflict Resolution **Focus:** negotiation	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to negotiation. Skills: Identify, discuss, interpret or demonstrate negotiation. Attitudes: Appreciate the importance of negotiation in personal and community life.	In groups, learners are guided to: negotiation; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can resolving conflicts help us live peacefully in the community?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
14	2	3.0 People and Relationships	3.6 Peaceful Conflict Resolution **Focus:** mediation	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to mediation. Skills: Identify, discuss, interpret or demonstrate mediation. Attitudes: Appreciate the importance of mediation in personal and community life.	In groups, learners are guided to: mediation; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can resolving conflicts help us live peacefully in the community?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
14	3	3.0 People and Relationships	3.6 Peaceful Conflict Resolution **Focus:** arbitration	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to arbitration. Skills: Identify, discuss, interpret or demonstrate arbitration. Attitudes: Appreciate the importance of arbitration in personal and community life.	In groups, learners are guided to: arbitration; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can resolving conflicts help us live peacefully in the community?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
14	4	3.0 People and Relationships	3.6 Peaceful Conflict Resolution **Focus:** effective communication	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to effective communication. Skills: Identify, discuss, interpret or demonstrate effective communication. Attitudes: Appreciate the importance of effective communication in personal and community life.	In groups, learners are guided to: effective communication; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can resolving conflicts help us live peacefully in the community?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
15	1	3.0 People and Relationships	3.6 Peaceful Conflict Resolution **Focus:** empathy	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to empathy. Skills: Identify, discuss, interpret or demonstrate empathy. Attitudes: Appreciate the importance of empathy in personal and community life.	In groups, learners are guided to: empathy; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can resolving conflicts help us live peacefully in the community?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____

15	2	3.0 People and Relationships	3.6 Peaceful Conflict Resolution **Focus:** culture of peace	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to culture of peace. Skills: Identify, discuss, interpret or demonstrate culture of peace. Attitudes: Appreciate the importance of culture of peace in personal and community life.	In groups, learners are guided to: culture of peace; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can resolving conflicts help us live peacefully in the community?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
15	3	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation **Focus:** marginal information	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to marginal information. Skills: Identify, discuss, interpret or demonstrate marginal information. Attitudes: Appreciate the importance of marginal information in personal and community life.	In groups, learners are guided to: marginal information; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can critical thinking be used in map interpretation?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
15	4	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation **Focus:** map scales	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to map scales. Skills: Identify, discuss, interpret or demonstrate map scales. Attitudes: Appreciate the importance of map scales in personal and community life.	In groups, learners are guided to: map scales; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can critical thinking be used in map interpretation?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
16	1	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation **Focus:** scale conversion	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to scale conversion. Skills: Identify, discuss, interpret or demonstrate scale conversion. Attitudes: Appreciate the importance of scale conversion in personal and community life.	In groups, learners are guided to: scale conversion; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can critical thinking be used in map interpretation?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
16	2	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation **Focus:** distance measurement	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to distance measurement. Skills: Identify, discuss, interpret or demonstrate distance measurement. Attitudes: Appreciate the importance of distance measurement in personal and community life.	In groups, learners are guided to: distance measurement; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can critical thinking be used in map interpretation?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
16	3	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation **Focus:** area calculation	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to area calculation. Skills: Identify, discuss, interpret or demonstrate area calculation. Attitudes: Appreciate the importance of area calculation in personal and community life.	In groups, learners are guided to: area calculation; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can critical thinking be used in map interpretation?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
16	4	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation **Focus:** drainage representation	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to drainage representation. Skills: Identify, discuss, interpret or demonstrate drainage representation. Attitudes: Appreciate the importance of drainage representation in personal and community life.	In groups, learners are guided to: drainage representation; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can critical thinking be used in map interpretation?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
17	1	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation **Focus:** relief representation	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to relief representation. Skills: Identify, discuss, interpret or demonstrate relief representation. Attitudes: Appreciate the importance of relief representation in personal and community life.	In groups, learners are guided to: relief representation; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can critical thinking be used in map interpretation?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____

Skills: Identify, discuss, interpret or demonstrate vegetation representation. Attitudes: Appreciate the importance of vegetation representation in personal and community life.	In groups, learners are guided to: vegetation representation; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can critical thinking be used in map interpretation?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
17	3	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation **Focus:** observation	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to observation. Skills: Identify, discuss, interpret or demonstrate observation. Attitudes: Appreciate the importance of observation in personal and community life.	In groups, learners are guided to: observation; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can critical thinking be used in map interpretation?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
17	4	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation **Focus:** analysis	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to analysis. Skills: Identify, discuss, interpret or demonstrate analysis. Attitudes: Appreciate the importance of analysis in personal and community life.	In groups, learners are guided to: analysis; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can critical thinking be used in map interpretation?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
18	1	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation **Focus:** inference	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to inference. Skills: Identify, discuss, interpret or demonstrate inference. Attitudes: Appreciate the importance of inference in personal and community life.	In groups, learners are guided to: inference; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can critical thinking be used in map interpretation?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
18	2	4.0 Natural and Historic Built Environments	4.1 Map Reading and Interpretation **Focus:** everyday map use	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to everyday map use. Skills: Identify, discuss, interpret or demonstrate everyday map use. Attitudes: Appreciate the importance of everyday map use in personal and community life.	In groups, learners are guided to: everyday map use; research or discuss the issue using suitable print/digital resources; record findings and present them.	How can critical thinking be used in map interpretation?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
18	3	4.0 Natural and Historic Built Environments	4.2 Weather and Climate **Focus:** factors influencing climate in Africa	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to factors influencing climate in Africa. Skills: Identify, discuss, interpret or demonstrate factors influencing climate in Africa. Attitudes: Appreciate the importance of factors influencing climate in Africa in personal and community life.	In groups, learners are guided to: factors influencing climate in Africa; research or discuss the issue using suitable print/digital resources; record findings and present them.	How does climate change affect human activities?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
18	4	4.0 Natural and Historic Built Environments	4.2 Weather and Climate **Focus:** distribution of climatic regions	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to distribution of climatic regions. Skills: Identify, discuss, interpret or demonstrate distribution of climatic regions. Attitudes: Appreciate the importance of distribution of climatic regions in personal and community life.	In groups, learners are guided to: distribution of climatic regions; research or discuss the issue using suitable print/digital resources; record findings and present them.	How does climate change affect human activities?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
19	1	4.0 Natural and Historic Built Environments	4.2 Weather and Climate **Focus:** desert and semi-desert	At the end of the lesson, the learner should be able to: Knowledge: Explain key ideas related to desert and semi-desert. Skills: Identify, discuss, interpret or demonstrate desert and semi-desert. Attitudes: Appreciate the importance of desert and semi-desert in personal and community life.	In groups, learners are guided to: desert and semi-desert; research or discuss the issue using suitable print/digital resources; record findings and present them.	How does climate change affect human activities?	Approved Social Studies textbook; KICD design; maps/atlas; print and vetted digital resources; charts, photographs and locally available materials.	Oral questions; observation; group discussion and presentation; map/project task; written exercise or portfolio.	_____
