GRADE 8 PRE-TECHNICAL STUDIES – 2027 LESSON PLANS

Term 3 • 28 lesson plans • School-neutral teacher planning resource

GRADE 8 PRE-TECHNICAL STUDIES – LESSON PLAN

School: _____ Teacher: _____ TSC No.: _____

Learning Area: Pre-Technical Studies Grade: 8 Year: 2027 Term 3

Week: 1 Lesson: 1 Date: _____ Time: _____ Roll: _____

Strand: 5.0 Entrepreneurship
Sub-strand: 5.1 Bookkeeping
Lesson focus: Summarising business records

Lesson Learning Outcomes

At the end of the lesson, the learner should be able to:
At the end of the lesson, the learner should be able to:
Knowledge: Explain key concepts related to summarising business records.
Skills: Appreciate honesty and accuracy in bookkeeping.
Attitudes: Appreciate the importance of summarising business records in safe and responsible work.

Key Inquiry Question: Why is bookkeeping important in a business?

Learning Resources: KICD curriculum design; approved Grade 8 learner's materials; charts, pictures or real objects; exercise books; and relevant tools, equipment, materials or digital devices, subject to availability and safety.

Organisation of Learning: Whole-class engagement, pairs and small groups; individual practice where appropriate. Ensure safe use of equipment and inclusive participation.

Introduction

The teacher displays or describes examples related to **summarising business records**, elicits learners' prior experiences and introduces the lesson focus. Learners share observations and agree on safe, respectful ways of participating.

Lesson Development

Activity 1: Learners observe, identify or discuss examples of summarising business records using locally available materials, illustrations or approved digital content.

Activity 2: In groups, learners investigate the focus through guided discussion, comparison, sorting, demonstration or information search, as appropriate to the topic.

Activity 3: Groups carry out a practical or applied task related to summarising business records. The teacher guides safe handling of tools, devices and materials wherever relevant.

Activity 4: Learners record findings, prepare a labelled sketch, chart, short explanation, demonstration or other suitable product, then present and receive peer feedback.

Assessment

The teacher assesses learners through observation, oral questions, review of written records and evaluation of the practical/group task. Learners use peer- and self-assessment to identify what they understood and what needs improvement.

Conclusion

Learners summarise the main ideas and explain one practical application of summarising business records. The teacher reinforces key safety, accuracy and responsible-use messages relevant to the lesson.

Reflection / Self-Remarks

At the end of the lesson, the learner should be able to:
Knowledge: Explain key concepts related to goods and services in the market.
Skills: Identify methods used to market goods and services.
Attitudes: Appreciate the importance of goods and services in the market in safe and responsible work.

Key Inquiry Question: How are goods and services marketed in the community?

Learning Resources: KICD curriculum design; approved Grade 8 learner's materials; charts, pictures or real objects; exercise books; and relevant tools, equipment, materials or digital devices, subject to availability and safety.

Organisation of Learning: Whole-class engagement, pairs and small groups; individual practice where appropriate. Ensure safe use of equipment and inclusive participation.

Introduction

The teacher displays or describes examples related to **goods and services in the market**, elicits learners' prior experiences and introduces the lesson focus. Learners share observations and agree on safe, respectful ways of participating.

Lesson Development

Activity 1: Learners observe, identify or discuss examples of goods and services in the market using locally available materials, illustrations or approved digital content.

Activity 2: In groups, learners investigate the focus through guided discussion, comparison, sorting, demonstration or information search, as appropriate to the topic.

Activity 3: Groups carry out a practical or applied task related to goods and services in the market. The teacher guides safe handling of tools, devices and materials wherever relevant.

Activity 4: Learners record findings, prepare a labelled sketch, chart, short explanation, demonstration or other suitable product, then present and receive peer feedback.

Assessment

The teacher assesses learners through observation, oral questions, review of written records and evaluation of the practical/group task. Learners use peer- and self-assessment to identify what they understood and what needs improvement.

Conclusion

Learners summarise the main ideas and explain one practical application of goods and services in the market. The teacher reinforces key safety, accuracy and responsible-use messages relevant to the lesson.
